TPD Notifies US Nuclear Regulatory Commission of License Application Plan

Salt Lake City, UT – Transition Power Development LLC of Utah submitted a letter of notification to the US Nuclear Regulatory Commission (NRC) today. This document informs the NRC of TPD’s intent to file an application for an Early Site Permit and/or a Construction and Operational License in 2010 for the Blue Castle nuclear power project currently proposed to be located near Green River city Utah.

“This is the first of what we expect to be many important interactions with the key regulatory authority responsible for nuclear power licensing and operational oversight” said Aaron Tilton TPD’s CEO.

About Transition Power Development

Transition Power Development (TPD) is a limited liability company serving the electric power generation industry by identifying and developing new nuclear plant sites in the western US. The TPD business mission is to select, acquire, enhance, and license plant sites which are uniquely well suited for the deployment of new nuclear power generation. TPD controls or owns the principal assets of its projects. More information about Transition Power Development can be found at www.transitionpowerdevelopment.com
